Objectives

The role is responsible for designing, coding and modifying dynamic websites, from layout to function according to customer specifications. Must strive to create visually appealing, device agnostic sites with user-friendly design.

Responsibilities

- Candidate must have a strong understanding of UI, cross-browser compatibility, general web functions and standards.
- Good knowledge and experience of Web applications programming languages such as HTML, CSS, JavaScript, JQuery, C# and APIs.
- Strong grasp of security principles and their application within web applications.
- Willingness to develop skills and expertise in appropriate programming languages and software, and share knowledge within the development team.
- Strong MySQL\SQL skills or experience greatly beneficial.
- Must be flexible with work hours and willing to work additional hours to meet deadlines.
- Carry out any 'ad hoc' assignments as and when required.
- Maintaining and updating existing website deployments.
- Creating new pages including reporting and management interfaces.
- Coding in a variety of languages.
- Editing content, debugging code and re-designing where necessary.
- Creating test plans and performing validation of code.
- Providing technical support to existing users.
- Continual professional development.
- Be vigilant for possible fraudulent activity and if necessary raise a security incident report using the template accessible via the corporate Intranet.
- Periodically review Daisy Security Policies – centrally hosted on the Intranet - to ensure full compliance with current legal, regulatory and company requirements.
- If you are a Manager of staff, you must ensure:
 - your team are aware of their security responsibilities & know how to access Daisy Group Security Policies hosted on the Intranet;
 - the principles listed with the **Daisy Group Security Policy Statement document** are embedded within the operations of your team.
- Carry out any 'ad hoc' assignments as and when required.
- To be compliant with health and safety company policy and legislation.
