## Understanding your Tariff Card

For some destinations it might be unclear what type of number you're actually dialling. To help you better understand the codes and descriptions we use, please read below.

**Fixed Fee Numbers** are premium numbers and generally tend to start with the dial string 090.

**Personal Numbering Services** are calls to virtual telephone numbers in a variety of countries, including the UK and Spain. These often start with 070.

**NGCS Access Charge** is the price set for calling 0871, 084, 09 and 118 numbers. The cost of the call includes our standard 10 pence per minute access charge plus the service charge set by the owner of the number.

You can check how much the service charge will be to calls to these numbers by visiting the Federation of Communication Services (FCS) website: <http://www.fcs.org.uk/how-much-does-it-cost/uboss>

Prices provided with your Daisy call tariff at point of order will apply for the duration of your contract unless amended in line with our standard terms and conditions. Full details of any of our call tariffs are available on request. Any call destinations that are not included in your main call tariff will be charged at "Daisy Base Fixed-Line Call Tariff" rates as listed in this price list.

Regulated by 

Prices quoted are GBP (£) per minute and include calls made during peak and off-peak times. Please refer to our terms and conditions for rounding rules. Calls to destinations not included on this call tariff will be chargeable as per our standard tariff card which can be found at [www.daisygroup.com/price-information](http://www.daisygroup.com/price-information)

we are daisy.
